DETAILED ACTION

Drawings

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description: 260 in (Fig. 5), 264, 272, 292 (in Fig. 7), and 294 (in Fig. 8). Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

2. The disclosure is objected to because of the following informalities: typo error, page 7, line 3, "cover 70" should be "cover 270", page 9, line 11, "The provides" should be "They provide" or "The planarizing provides", page 11, line 10, "substrate130" should be "substrate 230". Appropriate correction is required.

Allowable Subject Matter

3. Claims 1-19 are allowed.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Chen et al and Ding et al are cited to show packaging of microdevice.
5. This application is in condition for allowance except for the following formal matters: Objections to drawings and specification.
6. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
